Import Trade Control in respect of Ferro-alloys, Nickel and Zinc.

SIR,

I am directed to forward for the information of the Government of Mysore a copy of the Government of India, Department of Supply letter No.EMT/894, dated the 12th July 1941 addressed to certain firms in British India likely to import ferro-alloys. A copy each of the Government of India, Commerce Department notification No.44-ITC/41, dated the 24th June 1941 and of an Instructional Memorandum (No.1 Ferro Alloys) issued by that Department on the same subject is also forwarded for reference.

I have the honour to be,
Sir,
Your most obedient servant,

for SECRETARY TO THE RESIDENT.

VN

Copy of a letter from the Joint Secretary to the Government of India, Department of Supply, No.EMT/894, dated the 12th July 1941, addressed to certain firms in British India.

I am directed to invite attention to Government of India Department of Commerce, Notification No.44-I.T.C./41, dated the 24th June 1941, published in the Gazette of India Extraordinary dated the 24th June 1941 and to point out that certain Ferro-Alloys, Nickel and Zinc, cannot now be imported into India without a license. A press Note issued by the Government of India on the 26th June 1941 on this subject has doubtless come to your notice already. This import control has been necessitated by the control imposed by the U.K. and the U.S.A. on the export of these metals.

2. Applications for the grant of licenses to import these metals from U.K., U.S.A., and Burma should be submitted to the Steel Controller, 7, Wellesley Place, Calcutta. If an import licence is granted the requirements covered by the application will be included in the quotas arranged with these three countries and assistance will be given in obtaining release of the metals. I am to emphasize that licenses will not be granted in respect of metals the supply of which is ordered direct without the prior approval of the Steel Controller.

3. Applications for grant of licenses in respect of metals to be imported from countries other than U.S.A., U.K. and Burma should be submitted to the Import Trade Controllers.

2. The position in regard to motor vehicles and parts in particular is that these items, including tyres and tubes, will come under the licensing system even where consigned to Afghanistan and Iran under transit procedure, the licences being issued by the Government of India, Department of Supply. The object of bringing under licence motor vehicles in transit is to provide a safeguard against leakage of vehicles imported under the quota system, but it is not intended to interfere with genuine transit trade. This is not confidential and there is no objection to its being made use of in reply to enquiries on the subject.

PRESS NOTE

CARGOES IN ENEMY SHIPS
INVESTIGATION IN OCCUPIED TERRITORIES

Indian cargo-owners, who had cargoes on certain enemy vessels which previously took refuge in Italian East African ports, now in the occupation of the Imperial Forces, will be interested to learn that the Occupied Territories Administration have been requested to supply as full a statement as possible regarding such cargoes. The investigation is, however, difficult and must take some time.

As soon as such information as is found possible to compile, is available, it will be furnished to His Majesty's Procurator General, London, in order that Prize proceedings may be instituted against such shipments as have been identified. A further announcement will be made when it is known that Prize proceedings are instituted.

Notwithstanding the institution of Prize proceedings, His Majesty's Procurator General will be prepared to consider whether he can properly consent to the release of any goods made the subject thereof without requiring a claimant thereto to establish his claim formally in the Prize Court upon being furnished by the claimant with the documents relied upon as supporting his claim. No useful purpose will be served by any representation to the Procurator General in respect of any goods until Proze proceedings have been instituted and generally announced.

Under the Naval Prize Act, 1864, when any goods retaken from the enemy are restored to the owner, Prize Salvage becomes payable.

Subject:- Purchase of Ferro-Alloys for steel making and Foundry purposes.

Sirs,

In supersession of this office letter No.EMT/894, dated the 12th July, 1941, I am directed to give below the revised procedure for the import of ferro-alloys:-

In order to facilitate co-ordination with the Ferro-Alloys Control in the United Kingdom, it will be necessary for all importers (whether the import is from, U.K., Canada, U.S.A. or Burma), to refer all future demands for Ferro-Alloys, to the Director of Metals, Department of Supply, 6, Esplanade East, Calcutta. This reference should state precisely the purpose for which the alloys are required and quote, where possible Government Order numbers.

The Director of Metals will refer approved demands to the British Ferro-Alloys Control who will indicate where the purchases are to be made. This information will be conveyed immediately to all intending Indian purchasers.

It is pointed out that no purchases can, in future, be made in the countries mentioned above, without a recommendation from the Director of Metals to the British Ferro-Alloys Control. This recommendation will not be made unless the demand is fully justified.

SLS/16.

When U.K., Canada and Burma have been indicated, by the Director of Metals, as the countries from which the import is to be made, the importing firm should apply for an import license to the Deputy Steel Import Controller, 7, Wellesley Place, Calcutta. If orders are to be placed on the United States of America, importers need not apply for an import license, as action will probably be taken under Lease/Lend.

Sirs,

Subject:- Purchase of Nickel and Zinc.

Sirs,

() to Nos.1-17 only.

(In supersession of this office letter No.EMT/894, dated the 12th July 1941) I am directed to give below the revised procedure for the import of Nickel and Zinc:-

In order to facilitate co-ordination with the Non-ferrous Metals Control in the United Kingdom, it will be necessary for all importers (whether the import is from U.K., Canada, U.S.A. or Burma), to refer all future demands

for Nickel and Zinc, to the Deputy Director of Metals (Non-ferrous), Department of Supply, 6, Esplanade East, Calcutta. This reference should state precisely the purpose for which the metals are required and quote, where possible, Government Order numbers

The Deputy Director of Metals (Non-ferrous) will refer approved demands to the Non-Ferrous Control in the United Kingdom, who will indicate where the purchases are to be made. This information will be conveyed immediately to all intending Indian purchasers, who should address further communications regarding negotiations and other transactions direct to the Controller of Non-ferrous Metals, Ministry of Supply Non-ferrous Metals Control, Grand Hotel, Rugby. The telegraphic address of the Non-ferrous Metals Controller is "Matzraw Rugby".

A similar procedure regarding the import of other non-ferrous metals from abroad is under preparation and a subsequent communication will be issued on the subject shortly. In the meantime a reference should invariably be made to the Deputy Director of Metals (Non-ferrous) in the first instance.

It is pointed out that no purchases can, in future, be made in the countries mentioned above, without a recommendation from the Deputy Director of Metals (Non-ferrous) to the Non-ferrous Metals Control in the United Kingdom. This recommendation will not be made unless the demand is fully justified.

When U.K., Canada and Burma have been indicated, by the Deputy Director of Metals (Non-ferrous) as the countries from which the import is to be made, the importing firm should apply for an import licence to the Deputy Steel Import Controller, 7, Wellesley Place, Calcutta. If orders are to be placed on the United States of America, importers need not apply for an import licence, as action will probably be taken under Lease/Lend.

I have the honour to be,
Sirs,
Your most obedient servant,
